NON-VIOLENT COMMUNICATION (NVC) GROUP BEGINS

In this group we'll learn and practice a way of listening and talking to each other called "empathy." When someone's communication bothers us, practicing empathy is a way to respond so that the needs of both of us are heard and met. It is a practice of love (connection,) harmony (mutual satisfaction) and beauty (of common human needs,) We'll learn the basic process of NVC and apply it to daily life. Since we live in a community where interpersonal tensions can arise, we'll set guidelines so that personal safety of all community members is protected. The group will meet every Tuesday afternoon from 5:00-6:00PM in the back dining room. The first meeting will be next Tues, Jun 30. Bring your frustrations and dissatisfactions with communication, and receive the group's empathy, along with new ways to to find ease and effectiveness in communication. For the most growth in this process, please consider making a commitment to attend the group on a weekly basis. All are welcome.

Love, Janet

GREENING OF THE ABODE COMMITTEE

We will meet Wednesday, July 1, in the back dining room at 6pm.

In July and August, we will meet on the 2nd and 4th Wednesday evenings from 7-8:30pm.
Each of these circles will stand alone, you may attend any one or all of them at your pleasure.

Tantra traditionally represents the weaving of our spiritual and physical selves. This circle will provide a safe, confidential, and supportive atmosphere where we (biological and transgender women of all ages, sexual orientation and spiritual beliefs) can explore spiritual practices that will help strengthen our relationships and deepen our intimacies with ourselves and with others.

Some of the topics covered will be: Breathing into the Yes of Now: Balancing and Integrating Our First and Second Chakras; Moving Energy; The Feminine and Masculine Balance in Our Lives; the Mystical Yoni.

LOTS AND LOTS OF ORGANIC MATTER NEEDED!

The Abode Farm is looking for every bit of organic material possible. Addition of lots of composted material to the growing beds is essential to any long-term sustainable farming picture. Please bring down your kitchen waste, leaves, grass-clippings, and manures from farm-type animals to the composting area presently situated behind the dumpster area. (Note: Any coarser materials -sticks etc- please look for the sign indicating where to put this- it will be a separate pile). Please put materials on the marked pile right at the foot of where the sign is. Twice, we have found raw garbage in the middle of the parking lot as Flying Deer parents were dropping off their kids. Please do not dump in any location except where signs indicate where to dump appropriate materials.

Thanks and kudos to all in advance. This gravel sandy loam will appreciate it. Produce will more readily come out of the land by sustaining a rich living soil. Getting a large amount of material will be key in the coming years. Thx.

Also, plain cardboard (per Janet's description found under Rezak chalkboard) is still being collected down there in the front end of Implement shed next to creek by the Maintenance Shed.

Have fun and thank-you, Frank for the Farm

GARDEN NEWS

Two tasks are available for garden helpers.

Harvesting lavendar - cutting small bunches, tying them with twine or ribbon and hanging them in your room, apartment or home to dry. Payment is great aromatherapy and a few bunches to keep. Now is the time just before the flowers open fully. See Jemila or Nizam for more direction.

AHHHHHH - green pine cones are falling. Last year Adri took on the pine cone pick-up. Could someone take on this task while she is away? Gather pine cones in a white bucket and put them in the woods (not the compost). Why? Safety for ourselves and guests. Payment is easy bending workout resulting in enhanced flexibility and service to our community.

Cooks - herbs available now in the herb garden are: cilantro, tarragon, thyme, sage, chives.

Love, Jemila and Nizam
